DOUBLE ROMAN NARCISSUS.

Fine for early forcing, in pots. Flowers white, with yellow center, deliciously fragrant. Per 100 \$1.00; per 1000, \$8.00.

LILIUM CANDIDUM.

The old white Garden Lily, still one of the best, good for forcing or for borders. Choice selected bulbs, per doz. 75 cents; per 100 \$5.00.

LILIUM HARRISII.

(TREE BERMUDA EASTER LILY.)

This is a variety of *L. Longiflorum*, and to the florist it is far more valuable, not only on account of its greater size and beauty, but because it can be forced into flower as early as the Christmas holidays. By starting a few bulbs at intervals of three or four weeks, a succession of bloom may be had until June. Owing to the great demand and limited supply of this Lily, orders should be sent as early as possible. Bulbs ready for delivery now.

Extra large selected bulbs, seven to nine inches, per doz. \$1.35; per 100 \$10.00.

FREESIA.

Freesia refracta alba is a very valuable and desirable bulbous plant for forcing that is rapidly gaining in popular favor. Spikes of graceful flowers are produced just above the foliage, each bearing from five to eight flowers and buds, which last a long time after being cut. The flowers are pure white, with a touch of yellow at the inner base, and delightfully fragrant. Monster bulbs, per hundred, 85 cents; per thousand \$7.00.

LILY OF THE VALLEY.

Delicate and graceful with a delicious odor. Pips ready for delivery in November. Vick's extra selected, per 100, \$1.60; per 1000, \$14.00.

DOUBLE HYACINTH.

SINGLE HYACINTH.

ROMAN HYACINTH.

WE QUOTE ONLY FIRST-SIZED HYACINTH BULBS

We do not import, neither do we offer the small or second size bulbs quoted by many seedsmen and in many cases sold by them as first size. The second or small sized bulb will not give satisfaction and will not give "just as good a flower" as claimed, but which are offered simply to reduce prices and which will certainly disappoint the purchaser.

 Beware of low priced Hyacinths.

NAMED HYACINTHS.

When less than twenty-five bulbs are ordered a slight advance will be charged

The following list embraces the best and most popular sorts. They are selected especially for our sales, and are the best ever offered in any market. The single flowered varieties are much more effective than the double ones, succeeding better than the latter in glasses, forcing more easily and producing larger spikes. See Retail Fall Catalogue for full descriptions.

NARCISSUS.

Not less than six bulbs at the dozen rate, nor less than twenty-five at 100 rate.

POLYANTHUS NARCISSUS.

The most beautiful portion of the Narcissus family is the Polyanthus Narcissus. The flowers are produced in clusters or trusses of from half a dozen to three times this number. Like the others, they show every shade of color, from the purest imaginable white to deep orange. They are not hardy in this climate, but for flowering in pots in the house they are unsurpassed, and nothing can be more satisfactory for this purpose. For very early forcing the Double Roman and Paper White are the most desirable.

VanSion, double Nose, extra large bulbs, producing two to three flowers	30	1 85

SINGLE NARCISSUS.

The Single Narcissus is extremely hardy and popular as a border flower, and the central cup being of a different color from the six petals, makes the flower exceedingly attractive. Some have the petals of a light yellow and the cup orange; others have the petals white and the cup yellow; while the Poet's Narcissus, — *Narcissus poeticus*, sometimes called Pheasant's Eye, is snowy white, the cup cream color, with a delicate edge of red, which gives its latter name.
